SMS Texting
For Business

Company - Owned Texting Service for
your desktop and mobile users.

SMS for Business
Keep up with your customers, on the go.

CodeBlue Voice has simplified the process of texting with customers.
Communication can now span across departments and devices easier than ever.

Images + Text

Send and receive images and
text on both computer and cell
phone app.

- ✅ Manage from one device
- ✅ iOS, Android and PC
- ✅ Web or Client App

One App for All

Internal chat remains private,
while using SMS within ZAC or
MXMobile.

- ✅ Separate channels for SMS
- ✅ Sign in and out easily
- ✅ Chat history is exportable

Always Available

Send messages to a group or
an individual with ease. Role-
based texting is available.

- ✅ Agent availability improved
- ✅ Escalations now possible
- ✅ Web Integration Available

Enabling SMS on your existing Zultys system is easy.
Our team will guide yours through set up and usage with personalized training.

When your business depends on IT
